About the Partnership

As the steward of the Canadian Strategy for Cancer Control, the Partnership works with partners to reduce the burden of cancer on Canadians. Our partner network – cancer agencies, health system leaders and experts, and people affected by cancer – brings a wide variety of expertise to every aspect of our work. After 10 years of collaboration, we are accelerating work that improves the effectiveness and efficiency of the cancer control system, aligning shared priorities and mobilizing positive change across the cancer continuum.

From 2017-2022, our work is organized under five themes in our Strategic Plan: quality, equity, seamless patient experience, maximize data impact, sustainable system. The Partnership continues to support the work of the collective cancer community in achieving our shared 30-year goals: a future in which fewer people get cancer, fewer die from cancer and those living with the disease have a better quality of life. The Partnership was created by the federal government in 2006 to move the Strategy into action and receives ongoing funding from Health Canada to continue leading the Strategy with partners from across Canada. 1.0 BACKGROUND AND OBJECTIVE

The Partnership's first Organizational Digital Strategy (ODS) was developed in 2016 and clearly articulates an action plan for how the Partnership will begin to use digital means to address current state user experience issues and meet end user needs, thereby enabling effective knowledge mobilization and creating a solid foundation for future success and growth. Once complete, the Partnership's digital ecosystem will function as a key enabler to help realize the 2017-2022 Strategic Plan: We See Progress. A roadmap that details all ODS projects over the coming years has been developed.

One of the key ODS projects is the consolidation of a number of websites, primarily Cancerview.ca and PartnershipAgainstCancer.ca, into one main organizational website presence. The first release of the consolidated website occurred in December 2017, with several subsequent releases occurring over the next two years, as content is migrated from other websites. Other ODS projects detailed on the roadmap include projects focused on the following areas:

- i. Website evaluation
- ii. Digital outreach and engagement (e.g. how to leverage digital marketing more effectively)
- iii. Content strategy
- iv. Internal business process pertaining to digital (e.g. digital content guidelines development)

The Canadian Partnership against Cancer ("the Partnership") requires a range of digital vendor services ("Services"), to support various organizational digital projects. To facilitate this, the Partnership is looking to enter into a Supply Arrangement (SA) with qualified vendors (Proponents) to provide Services up to March 31st, 2021, for the initial term with option to extend as stated below.

The Partnership is seeking submissions (Proposals) from companies with established capabilities and a proven track record in:

- a. Digital strategy and research
- b. User experience (UX)
- c. Web design)
- d. Content strategy
- e. Technical development

Proponents are welcome to bid on one (1) or more of the five (5) categories listed above. Specific requirements for each category have been outlined in Section 4.0. **It is NOT mandatory to have all capabilities to be eligible to submit a Proposal.**

This competitive process will result in successful Proponents becoming pre-qualified to provide the services noted above. When a need for Services arises, the Partnership will enter into a Services

RFSQ # - SQ333-2018-01 for Digital Vendor Services

Issued 23 March 2018

Agreement with the pre-qualified vendor of its choice to complete the required work, as per Section 3.0 – Supply Arrangements.

Selected vendors will be pre-qualified to provide digital services vendors for a period of three (3) years, less a day, with an option to extend and/or renew based on the same Terms and Conditions for two (2) additional, two (2) year terms at the Partnership’s discretion.

Prequalified vendors will be provided with a Scope of Work, for each project. The deadline for completion will be mutually agreed upon in advance by both the Partnership and the successful Proponent(s).

The purpose of engaging in this process is to minimize submission requirements for Pre-qualified vendors, when a need arises, so that they can respond as quickly as possible and the Partnership can expedite the contract process accordingly.

finished work plus the proportionate part of any fee fixed by this Agreement and shall pay or reimburse the Contractor the fair and reasonable cost to the Contractor of all materials or work-in-process delivered to the Partnership pursuant to such direction. - ii. all costs of and incidental to the termination of this Agreement, including the cost of cancellation of obligations incurred by the Contractor with respect to the terminated Work or part thereof; but not including the cost of severance payments or damages to employees whose services are no longer required by reason of the termination.
- d) Payment and reimbursement under the provisions of this section shall be made only to the extent that it is established to the satisfaction of the Partnership that the costs and expenses were actually incurred by the Contractor and that the same are fair and reasonable and are properly attributable to the termination or suspension of the Work or the part thereof so terminated.
- e) The Contractor shall not be entitled to be reimbursed any amount which, taken together with any Amounts paid or becoming due to the Contractor under this Agreement, exceeds the Amount applicable to the Work or the particular part thereof.

provincial governments, fires, floods, epidemics, quarantine restrictions, strikes or labour unrest, freight embargoes and unusually severe weather.

- c) The Contractor shall give notice to the Partnership immediately after the occurrence of the event that causes the excusable delay. When requested to do so by the Partnership, the Contractor shall deliver a description in a form satisfactory to the Partnership, of work-around plans including alternative sources and any other means that the Contractor will utilize to overcome the delay and endeavour to prevent any further delay. Upon approval in writing by the Partnership of the work-around plans, the Contractor shall implement the work-around plans and use all reasonable means to recover any time lost as a result of the excusable delay. Any additional costs caused by the delay shall be supported by the Contractor.
- d) Notwithstanding that the Contractor has complied with the requirements of this section, the Partnership may exercise any right of termination contained in the section entitled "Termination or Suspension Without Cause".

34. Waivers

The fact that the Partnership refrains from exercising a remedy or right that it is entitled to exercise under this Agreement shall not be considered to be a waiver of such remedy or right and, furthermore, partial or limited exercise of a remedy or right conferred on the Partnership shall not prevent it in any way from later exercising any other remedy or right under this Agreement or applicable law, unless the Partnership waives such remedy or right in writing.

35. Warranty

- a) Notwithstanding inspection and acceptance of the Work by or on behalf of the Partnership and without restricting any other provision of this Agreement or any condition, warranty or provision implied or imposed by law, the Contractor warrants that, for a period of 12 months from the date of delivery, or if acceptance takes place on a later date, the date of acceptance, the Work shall be free from all defects in design, materials or workmanship, and

This Agreement may be signed in counterparts and each counterpart shall constitute an original document and all counterparts taken together shall constitute one and the same Agreement.
