

# System Performance Indicator Refresh – Vendor Information Session

January 21, 2019

WELCOME!

# Agenda

Agenda Item	
1. Welcome and Housekeeping	5 minutes
2. Background on the Partnership's System Performance Initiative	5 minutes
3. Overview of the System Performance Indicator Refresh	10 minutes
4. Vendor needs for external partner engagement	10 minutes
5. Q&A	30 minutes

# Housekeeping Items

- This session is being recorded (audio and deck) and will be posted on our website, MERX and Biddingo by end of day today.
- Friday January 25 is the deadline for Proponents to ask any questions
  - January 29 (Q & A response deadline)
- All participant lines will be muted until we reach the Q&A portion of today's session
- We will not be circulating a list of vendors who have attended today's session

# Session objectives

- To provide context about the Partnership's needs for the execution of the System Performance Indicator Refresh
- To provide Proponents with an opportunity to ask their questions directly to the Partnership team about the project

# About the Partnership's System Performance Initiative

## Goals of the System Performance Initiative

Develop Pan-Canadian cancer system performance metrics

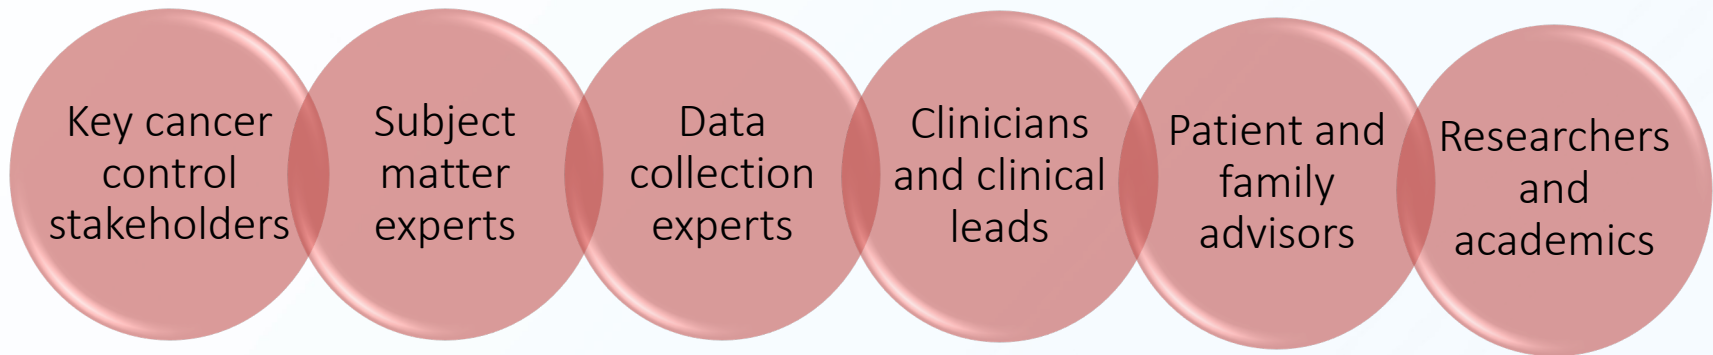

Report on the state of the cancer control system

Promote use and dissemination of data to inform future improvements

# About the Partnership's System Performance Initiative

Our work is not done in isolation

Technical Working Groups

Steering Committees

Expert Panels

Advisory Groups

# About the Partnership's System Performance Initiative

2009

- Development of initial suite of 17 system performance indicators

2010-  
2018

- Expansion of initial set of indicators from 17 to over 30 metrics reported on an annual basis

2019

- Partnership leads a refresh of the Canadian Strategy for Cancer Control (the Strategy), to be completed in May 2019

System Performance: A 10-year journey

# About the Partnership's System Performance Initiative

Prevention

Screening  
& Early Detection

Survivorship

System Performance: A 10-year journey

# Overview of the System Performance Indicator Refresh

## Why a System Performance Indicator Refresh?

The refreshed Strategy will provide updated national priorities for Cancer control

There is an opportunity to align system performance indicators with updated national priorities from the Strategy

# Overview of the System Performance Indicator Refresh

## End Goal

To develop a new suite of actionable system indicators, aligned with the priorities of the refreshed Strategy, to report on the current state of cancer control in a meaningful way

# Overview of the System Performance Indicator Refresh

## Timelines and work to date

February to August  
2018

International  
Environmental scan

September 2018 to  
January 2019

Development of  
priority-driven  
Conceptual Framework

February to May  
2019

Preparation for  
external  
consultations

June to September  
2019

External  
consultations

Vendor support

Winter 2019

Data collection

Spring-summer 2020

Reporting of indicator results

{ out of scope }

# Overview of the System Performance Indicator Refresh

## External Consultations Roadmap – Priority-driven framework

**1.** Identify priority areas in the cancer system that are primed for action

Partners will identify and prioritize key areas, using the Strategy as a starting point

**2.** Select potential system performance indicators that are best suited for assessing those priority areas

Partners will score and discuss potential indicators

**3.** Develop a consolidated set of system performance indicators

Partners will reach consensus on final set of indicators

# Overview of the System Performance Indicator Refresh

1.

Partners will identify and prioritize key areas, using the Strategy as a starting point

2.

Partners will score and discuss potential indicators

3.

Partners will reach consensus on final set of indicators

## Fully interactive partner engagement

- ✓ Kickoff webinars and Teleconferences
- ✓ Discussion forums
- ✓ News alerts
- ✓ Fully interactive scoring of indicators
- ✓ Encourage online involvement (e.g. progress logs)
- ✓ Limited in-person engagement could also be considered, when necessary

# Overview of the System Performance Indicator Refresh

## Indicator Refresh outcomes

Consolidated new set of annual System Performance Indicators

- Indicators to be populated in winter 2019/20
- New suite of indicators (with results) available in 2020/21

Buy-in and support from external stakeholders

- Provide data to populate new indicators
- Support and promote the use of new indicators

# Vendor Needs for External Partner Engagement

Preparation for  
external  
consultations

Develop a strategy for effective partner engagement in all key touchpoints

- Proposing and implementing online engagement tools (and other tools, if applicable)
- Advice on data collection and synthesis methods to inform next steps

External  
consultations

Execute all three stages of external consultations

Consolidate data collection and summarize key takeaways

# Vendor Needs for External Partner Engagement

## Considerations

- The 3 or 4 month indicator refresh is planned to start in early summer 2019 and finish by the end of September.
- We are looking for an integrated engagement strategy that relies primarily on online methods, and is supplemented by other techniques, when appropriate.
- The Partnership has already identified (or holds a relationship with) most of the key partners that will be invited to participate in this project. There will not be an engagement of the general public for this effort

# Next Steps

- Any additional questions can be submitted until Friday, January 25 (5 p.m. ET)
- The Partnership will issue responses to enquires by Tuesday, January 29
- Deadline to submit Declaration of Interest is Monday, February 4 (3 p.m. ET)
  - Feedback on timelines
  - Budget estimates → If purchase of Software & licensing is recommended, please include in a separate budget

# Q&A

Will open the floor for questions to people in the line

As a reminder, virtual attendees can use the chat box to post your questions or unmute your line

THANK YOU!
